Advanced Vehicle Control

Even the most experienced drivers can lose control of their vehicles. When this occurs, it can cost your business valuable time and money. In this Advanced Vehicle Control course, safety takes the driver's seat. At the end of this course, your drivers will have the skills and knowledge needed to stay confident, responsible, and most importantly, accident-free.

[Advanced Vehicle Control](#)

Collision Avoidance

Collisions can happen to the best of us—even professional drivers with years of experience behind the wheel. This Collision Avoidance course will teach your drivers proactive collision avoidance techniques to improve overall situational awareness, decision-making, and defensive driving skills. These skills can be further developed in our [Advanced Vehicle Control](#) course.

[Collision Avoidance Control](#)

Driver Assessment

Our Driver Assessment is often the first step in discovering what further training your employees need and helps to enhance their overall safety on the road. This course is designed to assess and evaluate the driving skills, behaviours, and knowledge of your drivers, providing vital insights to improve their performance and mitigate potential risks.
